president's message

Esther Carter-Day, 2010 IndyCREW President

It has been my privilege to serve as the 2010 President of IndyCREW. I want to thank the membership for giving me the opportunity. I also want to thank all of you who served on the various committees. I would like to send a special thanks to all of our Board members who supported me during my tenure as President. They did a great job with their respective board responsibilities. I leave you in good hands. Dee Headley is the incoming president of the organization. She is well-organized, has great resources and endless amounts of energy. I am confident that she will make a great president and I look forward to her leadership next year.

I had three goals coming into my Presidency for the year:

1. Implementation of a new website for our chapter. We are still tweaking a few things on the site but we completely overhauled the old website. We now have updated information about the organization and a great go to source for chapter events.

2. Growth of the chapter. We had 24 new members join our organization. In this current environment I'm pleased with the increase and look forward to getting to know the new members. We also had 6 new cornerstone sponsors.

3. Ensuring that the new committee structures are effective. This is another area that we revamped last year. There are some areas that we are still tweaking but I feel good about the overall direction of our committees.

All of these achievements were all equally challenging given the current economic climate but one of the great strengths of this organization is that we all work as a team to accomplish the goals set by the leadership.

I would like to encourage all of our members to support our next President and help her lead IndyCREW towards a robust tomorrow. Thank you!

Wishing you all a prosperous and healthy 2011.
